DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Ho (Registration # 39,711) on 3/31/2006.

The application has been amended as follows:

Regarding **claim 15**,

in line 1, after the word "(EMI)", please insert – to generate a spread spectrum clock –

in line 3, after the phrase, "coupled to a VCO input node," please insert – wherein the modulation control circuit includes a plurality of pull-up transistors and a plurality of pull-down transistors; and wherein the modulation control circuit includes a plurality of programmable delay cells -

in line 7, after the phrase, "for the modulation control circuit", please insert – by utilizing the plurality of pull-up transistors and pull-down transistors and the plurality of programmable delay cells -

Allowable Subject Matter

Claims 1-17 and 19-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding **claims 1 and 15**, none of the prior art references of record disclose or fairly suggest a VCO input modulation mechanism including a modulation control circuit comprising a plurality of delay cells and a plurality of pull-up and pull-down transistors to selectively adjust voltage at a VCO input to create a spread-spectrum clock and programming a parameter for the modulation control circuit.

Claims 2-14, 16-17 and 19-21 are included for their dependence on claims 1 and 15 respectively.

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James E. Goodley whose telephone number is (571)-272-8598. The examiner can normally be reached on Monday-Friday.
